

BedCideTM_{EU}

HIGHLY ACTIVE PREMIUM

BEDDING CONDITIONER

FOR YOUR DAIRY CATTLE

BEDCIDE

EASY & EFFECTIVE

BedCide is a high-quality absorbent that helps maintain and preserve your production and profits. It does not release water, does not become muddy and slippery. It forms a complex clod for easier cleaning. It drains smoothly and becomes 100% liquid in the pit.

BedCide creates a pleasant environment. It contains yucca extracts, helps reduce noxious ammonia odours in barns and ensures a more salubrious and comfortable environment. Moreover, it has been observed that the utilisation of BedCide reduces the number of flies in the bedding area.

Your Dealer:

Highly active premium bedding conditioner

- **Very effective absorbent bedding conditioner** - BedCide is a high-quality absorbent that provides very dry bedding. BedCide absorbs more moisture than the majority of similar products.
- **Easier cleaning** - BedCide forms a complex clod for easier cleaning. It drains smoothly and becomes 100% liquid in the pits.
- **Fresh environment** - BedCide creates a pleasant environment because it contains yucca extracts, helps reduce noxious ammonia odours in barns and ensures a more salubrious and comfortable environment. Your cows move and live in a nice and fresh environment.
- **Hostil environment for bacteria** - BedCide creates an unfavourable environment for mastitis-causing bacteria.
- **Easy-to-use product** - BedCide is easy to use safely. It does not require any special handling or equipment. It can be easily and safely applied by hand.
- **Safe product** - BedCide is safe for your cows, the environment and yourself.
- **Economical in use** - BedCide is more absorbent than lime and a few grams are sufficient where several kg of lime would be needed. BedCide absorbs more moisture than the majority of competitor products!
